Magnum[™] 420 Mounted Subsoil Plow

The Magnum [™] 420 Mounted Subsoil Plow provides 6 ft. wide well defined bed over the rip-line made with an adjustable sub-soil tine designed to fracture sub-soil 12-24" deep. The 420 mounts to 200 hp or greater bull dozers and has mounts to add a packer or chopper roller for to improve the compaction and density of heavy soils.

- ◆ The patented Magnum™ High-Lift Relieving Jump Arm and disk configuration, is exclusive to Savannah® and s the most robust assembly available.
- Magnum™ High-Lift Jump Arms provide up to 36" of clearance under the disk when relieving over a stump or large rock. 32" or 36" disks are available.
- The Heavy Duty Lift System articulates and lift s with a large single pivot point for great durability and locks in the up position for safety.
- An optional Packer or Chopper Roller is available and pins on the back to improve bed formation, compact soil and dirt clods to eliminate air pockets in the bed.
- A n Adjustable Sub-soil Tine is standard and offers subsoiling depth options from 12' to 28" deep.
- ◆ A 48" High Tensile Coulter mounted in front of the Sub-Soil Tine is key to efficient sub-soiling. The coulter cuts through stumps and roots to eliminate chocking. This improves efficiency by 25% and allows the operator to focus ahead of him.

The Abrasion Resistant Steel Coulter Mounted in front of the Sub-Tine Eliminates Chocking with Roots and Reduces Pull Force by 25%.....

epecifications:

- Heavy duty Magnum[™] hubs and spindles, which incorporates two 100mm bearings and featuring wear plates on hubs
- ♦ New "High Lift" jump height (34" total clearance).
- ◆ 2 x 11" Swept-back subsoil shank adjustable from 16 to 26" deep with replaceable ripper point and choice of 10", 12" or 14" subsoil wing.
- ◆ Two 5" x 24" lift cylinders with 2.5" shafts.

DIMENSIONS

Height: 7 ft
Width: 8 ft
Cut: 6ft
Length: 12 ft

Weight: 10,250 lbs.

- Heavy duty 48" coulter clears ripper path through heavy root mat and stump
- 2.5 gallon accumulator connected to the Stump-Jump™ hydraulic relief system and lift system.
- ◆ Available in 3 or 4 disk configurations, ie Magnum™ 430 and 440.
- Optional 26" Packer or Chopper Roller
